EUREKA

innovation across borders

Eureka is the world's biggest public network for international cooperation in R&D and innovation, present in over 45 countries.

French and Spanish organisations participating in international R&D projects are eligible for funding through Network projects, Globalstars, Eurostars and Clusters programmes.

The contact point organisations in France and Spain for organisations interested in international collaboration giving them access to expertise and supporting their growth are:

- France – BPIfrance
- Spain – Centro para el Desarrollo Tecnológico e Industrial (CDTI)
